ADJUTANT GENERAL'S OFFICE,

Washington, May 22, 1885.

Brig. Gen. RICHARD C. DRUM,

*Adjutant General U. S. Army.*

SIR: I have the honor to report the completion of the statistical statement of deaths in the United States Army during the late war, compiled in obedience to your order of June 2, 1884.

In the prosecution of the work all records of this office affording information upon the subject have been carefully and thoroughly examined. The table herewith submitted exhibits the result.

The aggregate mortality within the Union lines is the nearest approximation to the real loss attainable, and may be regarded as conclusive.

With the deaths occurring among prisoners of war the result is not so satisfactory. Unfortunately, the records of Southern prisons in possession of the department are very incomplete. In fact, the death registers of some of the principal places of confinement for Union soldiers have not been secured. Notably among these are Americus, Georgia; Atlanta, Georgia; Augusta, Georgia; Camp Ford, Tyler, Texas; Camp Oglethorpe, Macon, Georgia; Charleston, South Carolina; Lynchburg, Virginia; Marietta, Georgia; Mobile, Alabama; Montgomery, Alabama; Savannah, Georgia; and Shreveport, Louisiana. Besides these, only partial records were obtained from the following-named important prisons: Cahawba, Alabama; Camp Asylum, Columbia, South Carolina; Florence, South Carolina; Millen, Georgia; and Salisbury, North Carolina.

It is true that evidence of death was often communicated to the proper military authorities by surviving comrades, and the report of burials in national cemeteries, or "Roll of Honor," supplies a large number; but these sources of information, together with the Confederate records obtained by the Government, have proved deficient. As to the incompleteness of the interment record, a report prepared in the office of the Quartermaster General, in 1869, says: "It is well known that at many places, as, for instance, at Salisbury, North Carolina, and at Florence, South Carolina, &c., the bodies were buried in trenches, often two, three, sometimes even four deep, so that the accurate number of bodies interred at these places cannot be determined."

These facts warrant the belief that the actual number of Union soldiers who died in Confederate hands exceeds the number shown by the table.

It will also be seen that the cause of death in 12,121 cases is not of record in this office. Future investigations will probably, to a certain extent, elicit the cause, and thus diminish the number appearing under that head. A corresponding increase of other classifications would naturally follow. It is, however, fair to assume that the *grand aggregate* will not hereafter be materially altered.

The column of "other known causes" includes all deaths resulting from quarrels, riots, and the like, and which are not definitely reported as murder; from being shot for insubordination, or by provost guards or sentinels in attempting to escape or pass the lines; from exhaustion or exposure; killed while depredating upon the property of citizens; and all other causes not embraced in the preceding columns.

The period represented by the phrase "during the late war," in the caption of the table, embraces, in the case of the Regular Army, the time comprehended between April 15, 1861, and August 1, 1865. For the volunteers, of all descriptions, it covers the period from date of muster in to the date of final muster out of each organization, excepting prisoners of war who died after the discharge of their commands. These, so far as known, are counted.

The greater portion of the Volunteer Army was disbanded during the summer and fall of 1865, but the subsequent gradual reduction of the force was not fully consummated until late in 1867. The last white organization was disbanded November 18, 1867, and the last colored regiment December 20, 1867. The last officer of the volunteer general staff was mustered out July 1, 1869.

Very respectfully, your obedient servant,

J. W. KIRKLEY.
